## Objective

To pursue a career in medicine by building a strong foundation in biological sciences and healthcare practices. My goal is to contribute meaningfully to the field of healthcare by becoming a compassionate, skilled, and ethical medical professional.

## Profile

I am a diligent and inquisitive 12th-grade science student aspiring to specialize in the medical stream, with a strong foundation in Biology, Chemistry, and Physics. Passionate about life sciences and human health. I aim to pursue a career in medicine or biotechnology as I have a keen interest in medical research and healthcare innovation. I am currently seeking opportunities that allow me to apply my academic knowledge in real-world medical or research settings. I aim to make a positive change to world health.
