Dr. Nada Hussain

Doctor of Medicine

A patient focused and highly trained final year medical student, well prepared to carry out patient testing and care across multidisciplinary patient environments. Experienced in providing healthcare in fast paced city hospitals, as well as working with patients long term. Adept at communicating with nurses and doctors, and building rapport with patients. Skilled in performing medical procedures like blood pressure checks, venepuncture, intravenous cannulation, foley catheter placements, electrocardiogram, and more. Experienced in writing patient reports and updating daily on the electronic database.

Experience

○ 2022 - 2024

Clinical Rotations at Tbilisi State Medical University Hospitals

- Completed clinical rotations in Internal Medicine, Emergency Medicine, General Surgery, Family Medicine, Pediatrics, Obstetrics and Gynecology, Neurology, and Psychiatry.
- Conducted daily rounds to review a broad range of cases, under close supervision of attending physicians.
- Interviewed patients daily to obtain information, collecting patients' blood pressure, pulse, and temperature, and maintain patient records.
- Observed and assisted in surgeries ranging from outpatient laparoscopic procedures to kidney transplants.

Clinical Rotations at Emory University Hospital

- Completed inpatient and outpatient placements in the Hematology-Oncology service, specifically Lymphoma-Myeloma service. Conducted daily rounds and was closely involved in patient care.
- Completed elective in Transplant Medicine, liver and kidney, with outpatient and inpatient placements in both.

Rotation at Hennepin County Medical Center

- Completed Radiology rotation. Reviewed and interpreted approximately 200 imaging studies daily, including plain films, ultrasounds, MRIs, and CT scans, under the supervision of attending radiologists.
- Rotated through the Interventional Radiology (IR) department, developing a strong foundation in minimally invasive techniques.

○ Research Experience

- Won the 3rd place in poster presentation competition at the USMD Neuroscience Summit held in Tbilisi State Medical University for the research: *The Impact of Video Gaming on the Emotional Intelligence of Young Adults in Georgia*
- Presented a poster on the original pilot study on The Impact of Video Gaming on the Emotional Intelligence of Young Adults in Georgia in Dandy Neurosurgical Symposium 2022
- Won the 3rd place in poster presentation competition in the Breast Cancer Awareness Event 2023, held in Tbilisi State Medical University, for the research: *Revolutionizing Breast Cancer Treatment: Utilizing Pembrolizumab, a PD-1 Inhibitor, as an Immunotherapy Tool*
- Presented the research: *MTHFD1 & MTRR Single Nucleotide Polymorphisms and their Association with Migraine and Subclinical Hypothyroidism in the Georgian population*, in Tbilisi State Medical University for Discovery module.
