Motivation for Volunteering

I believe that everyone deserves to feel safe, have shelter, and someone to turn to, whether it's to share a good day, a difficult day, or just feel heard.

While we can't solve all the world's problems, we *can* start by making a difference for one person at a time, and especially by focusing on prevention.

I am open to contributing in any way needed and am eager to learn more about your work, develop my skills, and grow in my ability to support women and children effectively.

Volunteering at your center aligns with my long-term vision of one day establishing my own foundation for children in need, creating safe homes - one by one.

Every journey toward making a difference begins somewhere, and I am ready to start wherever I am needed, confident that I can add meaningful value while learning and developing alongside your team.
