WORK EXPERIENCE

Mostafa Bin Abdullatif Investments **Dubai, UAE**
Job: Design architect **Ongoing**
MBAL is a family-owned business, during my job with them I worked on several residential development projects allowing me to gain experience on the real estate market in Dubai. One of our ongoing projects is the development of 10 residential villas in Jebal Ali Hills, during this project I worked on schematic design, studied building regulations of the area, and gained an understanding of project cost management.

Foster + Partners **Dubai, UAE**
Internship **October 2022**
During my internship I attended several meetings with clients (e.g. Alpago, Arada) on upcoming projects, where discussions on proposed designs were undertaken, in terms of client requirements, legislations, and contractor inputs. I also went on several construction site visits, such as 7 Gardens, a Dorchester Collection residence. I was able to work in-office with the fosters team on various projects at different design stages, using softwares like Revit to edit and refine drawings at different scales.

Brownbook- Ahmed & Rashid bin Shabib **Dubai, UAE**
Internship **April 2017**
Brownbook is a magazine company that explores the contemporary Middle East, reporting different stories of the art world in the region, through architecture, music, and culture. During

this internship, I got an insight into how the company performs and the illustrative aspects of formatting and content creating for the magazine.
